Oggetto: EFRS “I am a Radiographer” Public Awareness Campaign.

Gentili Presidenti,

vi invitiamo a diffondere tra i vostri iscritti l’iniziativa promossa da EFRS in occasione della prossima giornata mondiale della radiologia, quindi del TSRM.

Invitateli a inserire il loro nome nel [poster](#), a farsi (fare) una foto e a postarla sulle pagine EFRS di Facebook e Twitter con l’hashtag #Radiographer2018 e il seguente testo “I am a radiographer of the EFRS. Together, we are Radiographers – and that is something to be proud of! #Radiographer2018 @efrs”.

Di seguito il messaggio del Presidente EFRS, Jonathan McNulty:

EFRS Public Awareness Campaign

This November 2018 The European Federation of Radiographer Societies celebrates its 10-year anniversary uniting, representing, promoting and developing the profession of radiography in Europe.

We are extremely proud of all you wonderful and dedicated radiographers, who work tirelessly every day, delivering professional services to patients across Europe. Together, we form a multifaceted and multi-coloured jewel, hardened in to a whole by a common dedication to the profession and the wish to ensure the safety of the patient.

Celebrating our profession

The EFRS is comprised of a diversity of people, from many different nationalities, ethnicities, beliefs, custom’s and views, but all of us sharing the singularity of our common profession.

Via Magna Grecia, 30/A – 00183, Roma

ISTITUITA AI SENSI DELLE LEGGI:
4.8.1965, n. 1103, 31.1.1983, n. 25 e 11.1.2018, n. 3
C.F. 01682270580

We are now more than 100.000 Radiographers and over 8.000 students through 40 national societies/professional bodies, and 60 educational institutions, across 36 countries. The EFRS is the uniting force of the Radiographers across Europe, that help focusing 36 nationalities in a common goal, the care and safety of the patient.

10-years is something to be proud off and as many people as possible should know about us!

Therefore, in the time leading up to our anniversary, the EFRS is launching a campaign celebrating our profession and our diversity, and we hope that you will join us through Social Media across Europe.

We invite radiographers from all over Europe to proudly proclaim during the campaign that: "I am a radiographer from..." thus showing the world, that they are among the radiographers of the EFRS, who every day provide high quality diagnostic imaging services and deliver cancer treatments, while ensuring the safety of the patients.

- Take a photo of yourself, and maybe your colleagues, holding the attached poster.
- Post it on the **EFRS Facebook** page and **Twitter** under #Radiographer2018 along with the text below and any other relevant #'s you can think of: "I am a radiographer of the EFRS. Together, we are Radiographers – and that is something to be proud of! #Radiographer2018 @efrs"

Best regards,
Jonathan McNulty
EFRS President".

Cordiali saluti.

Il Presidente
Alessandro Beux
